PURPOSE AND OBJECTIVE OF THE PROJECT

The aim of the project is to help improve the decision-making process and increase the quality of public spending by extending the strategic planning system to the concerned ministries.

Objectives:

Elaboration and updating of 13 Institutional Strategic Plans (PSI) based on the new strategic planning methodology developed in 2014-2015 through the project "Monitoring and Evaluation of the Decision Process", project financed by a non-reimbursable grant offered by the World Bank and preparation of a draft government decision on the methodology;

Implementation of a PSI implementation monitoring system for the 13 ministries, based on an IT application developed through the project "Monitoring and Evaluation of the Decision Process, project financed by a non-reimbursable grant offered by the World Bank";

Training of staff at the level of the Chancellery of the Prime Minister and the 13 line ministries in the field of strategic planning and in the use of the IT application for monitoring the PSI;

Implementation of a system for rapid identification and preservation of existing documents at the level of the Romanian Court of Accounts, in order to support the process of substantiating the implementation of the PSIs at the level of the 13 ministries.

EXPECTED RESULTS

At the end of the project, the Court of Accounts will have an integrated system for rapid identification and storage of existing documents, consisting of the following components:

A. Digitization of relevant documents: minimum
2,200,000 pages;
